

# Conforta<sup>®</sup> 2-piece colostomy pouches

The highly reliable 2-piece colostomy system consists of a flexible flange, fitted out with a ring, plus colostomy pouches that can be clicked onto this ring very easily.

The material used is designed for comfort and prevents irritation of the skin. The closed pouches are very discrete in terms of odour and noise.

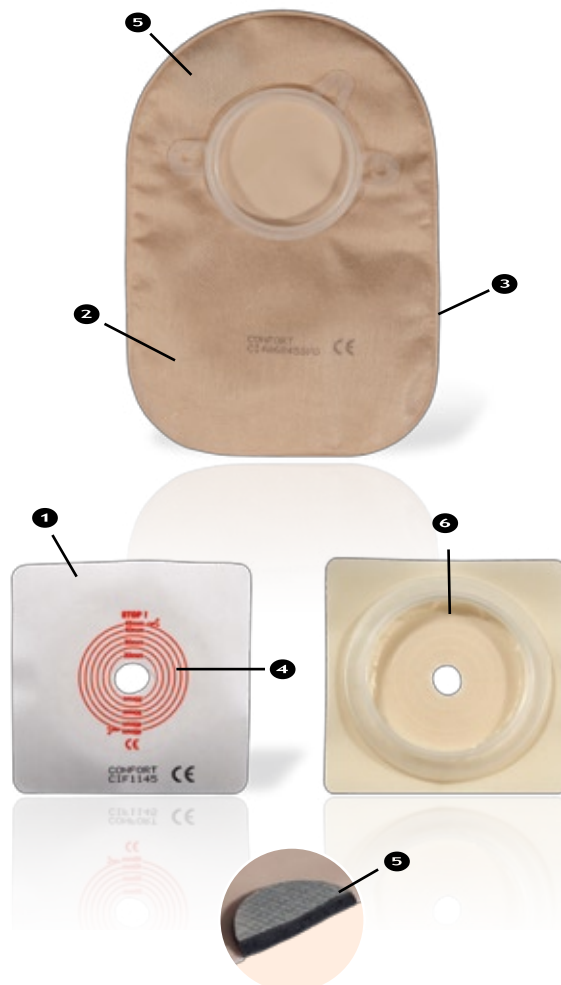

- 1 100% hydrocolloid wafer, extremely skin-friendly and flexible

Excellent balance between secure adhesion to skin and easy removal.

- 2 Soft, breathable and water-resistant tissue to one or both sides – in white or beige

The tissue feels pleasant, prevents perspiration and dries fast after swimming or showering.

- 3 Virtually noise-free film in transparent or beige
- Impermeable to odour.

- 4 Skin patch

Available in pre-cut sizes or can be cut to measure.

- 5 Optional carbon filter

Removes odour and prevents 'ballooning' of the pouch.

- 6 Comfortable, reliable and secure ring-system

The pouches can be clicked onto the baseplate very easily.

- 7 'Dual adhesive' flanges

Feature an additional microporous collar for extra adhesion and security.

## Order codes Bags

Product code	Description	Colour	Tissue	Maximum cut size	Ring size	Package quantity
TCSCT10050	Standard	Transparant	Single Layer	38mm	50	15
TCSCT10060	Standard	Transparant	Single Layer	45mm	60	15
