

Conforta[®] 2-piece urostomy pouches

The highly reliable 2-piece urostomy system consists of a flexible flange, fitted out with a ring, plus urostomy pouches that can be clicked onto this ring very easily.

The material used is designed for comfort and prevents irritation of the skin. These pouches are very discrete in terms of odour and noise. Thanks to the flexible drain, the pouch can be easily emptied.

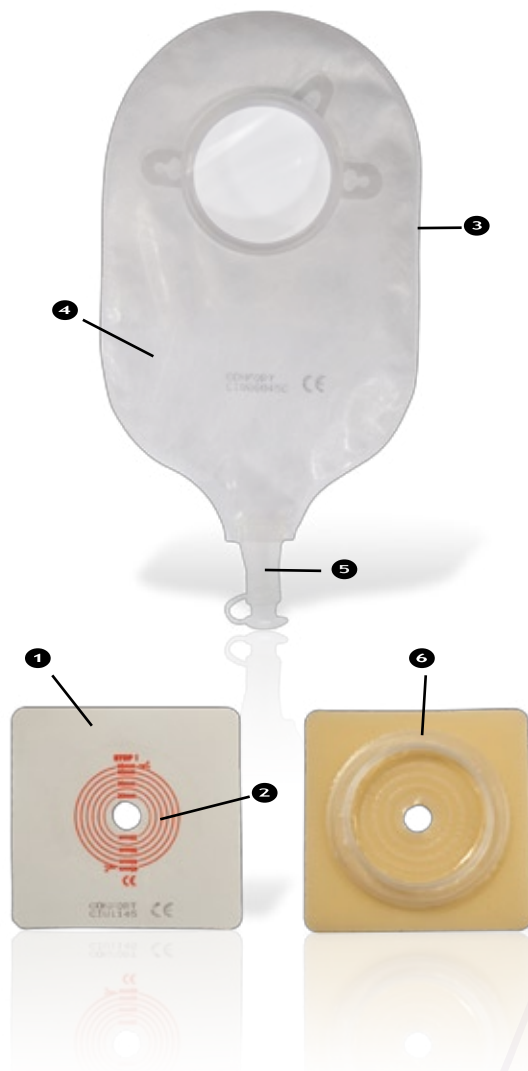

- 1 **Flexible, extra thick hydrocolloid flange**
Prevents skin damage caused by aggressive uric acid

- 2 **Skin patch**
Available in pre-cut sizes or can be cut to measure.

- 3 **Virtually noise-free transparent film**
Stops odours from permeating.

- 4 **Soft, breathable, and water-resistant outer tissue**
Feels pleasant to touch, prevents perspiration and dries fast after swimming or showering.

- 5 **Flexible drain for emptying in between pouch replacement**
Easy to attach to universal overnight urine drainage bag or leg bag.

- 6 **Comfortable, reliable and secure ring-system**
The pouches can be clicked onto the baseplate very easily.

- 7 **Minimum risk of leakage thanks to the non-return valve**
Keeps the urine in the drainage bag and prevents it from flowing back.

Order codes Bags

Product code	Description	Colour	Tissue	Maximum cut size	Ring size	Package quantity
TUSCT10050	Standard	Transparant	Single Layer	38mm	50	10
TUSCT10060	Standard	Transparant	Single Layer	45mm	60	10
TUSCT10070	Standard	Transparant	Single Layer	57mm	70	10
